

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

LIBRARIAN'S REPORT.

*Hon. James A. Rose, Secretary of State and ex officio State Librarian,
Springfield, Illinois:*

DEAR SIR—I herewith submit the report of the Illinois State Library for the biennial term, Oct. 1, 1904, to Sept. 30, 1906:

Total accessions.....	3,300
Acquired by exchange.....	2,239
Acquired by purchase.....	695
Acquired by gift.....	316

These classified are:

State public documents.....	1,469
Federal public documents.....	648
Foreign public documents.....	56
General works.....	160
Philosophy and religion.....	6
Sociology.....	152
Natural science.....	72
Fine arts.....	7
Literature.....	125
History and travel.....	314
Biography.....	24
Periodicals.....	267
Number of books bound.....	395
Number of periodicals in reading room.....	86
Number of periodicals purchased.....	76
Number of periodicals donated.....	10

There have been delivered to the Law Library 232 volumes of Supreme and Appellate Court reports, and 72 volumes of session laws of the various states.

The Library has been enriched by numerous gifts. Mention may be made of the following: Chicago University Decennial publications, publications of the Carnegie Institution of Washington, proceedings of the Congress of Arts and Science of the Louisiana Purchase Exposition, complete file of the National Prison Association Proceedings, and a partial file of the Military Service Institution.

Among the more important purchases may be mentioned, the International Library of Technology, Cambridge Modern History, Early Western Travels, Louisiana and the Fair, Hart's The American Nation, Ideas that have Influenced Civilization, Irish Literature, Voltaire's complete works, Modern Eloquence, Cyclopedia of American Horticulture, Historian's History of the World, Library of Literary Criticism, Paul's History of Modern England.

The increased use of the reference room leads me to call your attention to the need of more shelving in that department, and at the same time this will lessen the pressure for room in the main stacks.

Respectfully submitted,

MAUDE THAYER,
Assitant State Librarian.

DOCUMENT DEPARTMENT.

Number of printed documents received and distributed by this department from Oct. 1, 1904, to Sept. 30, 1906:

	Copies received.	Copies distributed.
Reports of State officers, boards, commissioners, institutions, etc., printed and bound.....	804,652
Reports distributed to members of the General Assembly, State officers, boards, institutions, etc.....		396,746
Reports distributed on request.....		249,949
Ledgers, blank books and other fifth class binding.....	12,995	12,995
Election registers.....	18,000	15,200
House bills, amendments, etc., 44th General Assembly.....	602,600	585,929
Senate bills, amendments, etc., 44th General Assembly.....	459,600	423,400
Supreme Court reports.....	5,124	5,124
Printed envelopes, all kinds.....	1,055,350	1,055,350
Letter heads and blanks, all kinds and sizes.....	3,351,555	3,351,555

Nineteen thousand four hundred forty-six express packages, over 40,000 small parcels by mail and 54,962 pounds in freight shipments were required in making above distribution.

REPORT OF PRINTER EXPERT.

Oct. 1, 1906.

To the Commissioners of State Contracts:

GENTLEMEN—During the past two years a new standard, both as to quality of work and promptness of execution, has been established for the State printing, and there is every reason to believe it will be maintained in the future. Because of the fact that at certain seasons a large number of reports of practically equal importance are filed within the space of a few weeks, it is impossible at such times to complete all within what would be a reasonable time were only one or two in hand; and there are times, too, when delay in the publication of a report is due to delay in the preparation of copy by a department, and not to the slowness of the printing contractor. As a rule, however, the printing of the State, in the biennial period just closed, has been executed as promptly as commercial work of similar character, and much more economically as to cost. Under the present contract, machine composition is permitted upon the order of the Printer Expert, which will enable the printers to deliver many of the reports in half the time required under former conditions.

By the detailed statement filed herewith, you will notice that the grand total of work for the contract term just closed is \$85,321.10, as against \$64,250.00 for the two years preceding. This substantial growth in the volume of the work will no doubt be given due consideration by you and by the Legislature in fixing the amount of the appropriations for printing for the next two years.

Respectfully submitted,

H. W. JONES,
State Printer Expert.

DETAILED STATEMENT OF PRINTER EXPERT.

Following is a detailed statement made by the Printer Expert, showing the amounts expended for printing for the various departments from Oct. 1, 1904, to Oct. 1, 1906:

GOVERNOR.
